QUALIFIED PERSON TRAINING ***ANSI/ASSE Z359 Fall Arrest Code Compliant***

Ellis Fall Safety Solutions Qualified Person training is a **1-1/2 day course** consistent with **ANSI/ASSE Z359 Fall Arrest Code** and **OSHA Fall protection Standards 29CFR1926.500**. It will prepare individuals to be designated Qualified Person in fall protection by your Corporation.

This is an interactive, multi-media, hands-on course to get participants actively involved in designing solutions for preventing falls and reducing fall risks in their workplace. Through use of lecture, discussions, demonstrations, case studies and design application activities, participants will learn to understand and apply principles, code, and standards to real-life situations.

Prerequisite - Participants must have an engineering degree AND equivalent on-the-job engineering experience involving work at elevated locations, AND have completed Fall Protection Competent Person Training prior to taking this class.

At the completion of the seminar, participants and/or teams will be able to:

- Solve and resolve fall hazard situations
- Quantify maximum arresting forces
- Understand the physics of a fall
- Design anchor points for the attachment of personal fall arrest systems
- Design Horizontal/Vertical Lifeline and Rigid Rail fall arrest systems and their anchorages
- Supervise the installation and use of Horizontal/Vertical Lifeline and Rigid Rail fall arrest systems
- Document/specify fall arrest systems on engineering drawings
- Be considered by their company for Qualified Person status per OSHA 1926.32(m) and ANSI/ASSE Z359 Fall Arrest Code.

Professional Fees and Terms of Payment

Qualified Person Course taught by a certified PE: \$ 1,000 per student.
Inquire about special rates for 6 or more participants taught at your site.

Travel and living expenses and arrangements are the responsibility of each attendee. Course fee is payable with reservation and is non-refundable. Substitutions are permitted.
