Dr. J. Nigel Ellis, CSP, P.E., CPE

Dr. J. Nigel Ellis is a leading authority in the field of industrial and construction fall protection. He is President of DYNAMIC SCIENTIFIC CONTROLS (DSC), Divisions of DSC include: Ellis Fall Safety Solutions, a consulting firm specializing in fall hazard control planning, engineering and training. Ellis Litigation Support and Ellis Ladder Improvements (ELI).

He is former Chief Executive Officer of RESEARCH & TRADING CORPORATION (RTC) of Wilmington, Delaware producers of an extensive line of industrial fall protection, controlled descent and confined entry rescue systems.

A Board Certified Safety Professional (CSP) by examination 1984, Dr. Ellis is the 109th Fellow and Professional Member of the American Society of Safety Engineers (ASSE) with memberships in the Construction and Consultant Divisions. In 2011 he has been awarded the ASSE Thomas F. Bresnahan Standards Medal for voluntary standards participation. He is also a Distinguished Service to Safety Award winner in 2009 and member of the National Safety Council (NSC) and is Chairman of the NSC Construction Division. In addition, a member of the Human Factors & Ergonomics Society and President of the Veterans of Safety (VOS), www.vetsofsafety.org

Dr. Ellis is a Registered Professional Safety Engineer in the States of California and Massachusetts. He is a Board Certified Professional Ergonomist (CPE) 1994,(human factors specialist) and he is also a National Academy of Forensic Engineers (NAFE), CESB Board Certified Fellow in Forensic Engineering. (Council of Engineering Specialty Boards).

Over three decades, Dr. Ellis has helped develop Occupational Safety & Health Administration (OSHA) standards on fall protection, emergency egress and confined space safety. He has testified at OSHA hearings on fall protection in the Oil and Gas Well Drilling and Servicing industry, Exterior Building Maintenance, Construction, General Industry and Confined Space Standards. He provides expert witness services to OSHA in fall protection cases and also testifies in product liability cases

Dr. Ellis has been a member of the following ANSI, ASME, ASTM, SAE, and ISO committees and groups:

Z359	Personal Fall Protection (General Industry) and several sub-committees including the following:
Z359.0	Definitions and Nomenclature Used for Fall Protection and Fall Arrest
Z359.1	Safety Requirements for Personal Fall Arrest Systems, Subsystems, and Components
Z359.2	Minimum Requirements for a Comprehensive Managed Fall Protection Program

Z359.3	Safety Requirements for Positioning and Travel Restraint Systems Former Chairman
A10	Construction & Demolition Operations Committee and several sub-committees including:
A10.32 (A10.14)	Fall Protection Equipment for Construction and Demolition
A10.22	Rope-Guided and Non-guided Worker's Hoists – Safety Requirements
A10.28	Work Platforms Suspended from Cranes or Derricks – Safety Requirements
A10.43	Confined Spaces in Construction
A10.48	Communication Tower Erection
A14.3	Ladder – Fixed – Safety Requirements
Z117.1	Confined Space Safety Requirements (Gen. Industry)
A120	Building Exterior Maintenance Safety Requirements
I-14.1	International Window Cleaning Association (IWCA) Window Cleaning Safety Standard

American Society of Testing Material (ASTM)

E06.51.25	Skylight Human Impact Resistance Committee, Co-Chair
E06.77	High-Rise Building External Evacuation Devices
F08.16	Archery Products (Hunting Tree Stands)
F13	Pedestrian/ Walkway Safety and Footwear
ASME	Steel Stack Access
SAE J185	Access Systems for Off-Road Machines
ISO TC94/SC4	International Fall Protection/ANSI TAG

National Safety Council (NSC) member:

NSC	Construction Division
NSC	Marine Section – Ship Design

Nigel Ellis Expertise: 40 Years safety and human factors experience: Registered Safety Engineer CA/MA, Certified Safety Professional, Certified in Human Factors, scientist, author of textbooks and numerous articles on safety and hazard recognition; labels warnings and instructions expert; safety consulting business development, business agreements relating to safety requirements, safety assessments, developer of safety appliances including ladder improvements, patent holder: safety solutions, developer of safety procedures, eliminator and controller of workplace walking/working hazards,. He typically applies safety principles to potential incidents of sudden energy release that potentially cause injury and property damage. Dr. Ellis' extensive networking in the industry has brought him within reach of many leading experts in related specialties.

CURRICULUM VITAE

WORK EXPERIENCE

- 2005 – Present** **President, Ellis Litigation Support, Div. of DSC**
Consult with and assist counsel in personal injury litigation related to falls.
- 2005 – Present** **Management Member, Ellis Fall Safety Solutions, LLC, Div. of DSC**
Fall Protection assessment, engineering, installation and training in the workplace.
- 1985 – 2004** **President, Dynamic Scientific Controls, Inc. (DSC)**
Safety Consulting Firm; corporate and OSHA consultation for elevated work safety policy, programs and training, planning of feasible work methods and safety engineering of the workplace. Site visit evaluation of work practice and fall hazard exposure. Fall protection engineering consultant on-site for turnaround, construction and process.
Fall protection training classes conducted nationwide.
DSC subsidiary Ellis Fall Safety Solutions LLC (EFSS) for Consulting and Training and includes Ellis Fall Protection Engineering Division (EFPE), and encompasses the Ellis Fall Protection Institute (training), and Ellis Ladder Improvements Inc. (ELI) DSC is the parent of Ellis Litigation Support Services (ELS) (dba).
- 1986 - 1996** **C.E.O., Research & Trading Corporation (RTC)**
Safety Equipment Manufacturer. Safety engineering and design of RTC-manufactured fall arrest products into the workplace, including human factors, engineering of labels and warning information systems.
- 1970 - 1986** **President, Research & Trading Corporation (RTC)**
Safety Equipment Wholesaler and Manufacturer;
Systems for fall protection and emergency escape from elevated workstations to be engineered into the workplace or buildings.
- 1968 - 1970** **Sales Rep., Addressograph Multigraph**
Vartyper Division; typesetting systems for newsletters, reports, engineering drawings, educational and training audio visual facilities.
- 1967 - 1968** **Research Chemist, DuPont Company**
The research and development of high temperature, high strength, fire-retardant thermoplastics for industrial engineering applications.

EDUCATION

CERTIFICATION: Board Certified Safety Professional

Specialty: 1. Management Aspects 1984
2. Comprehensive Practice 1992
3. Construction Safety 1994

Certificate Number 7266

Board of Certified Safety Professionals, BCSP, Savoy IL

Vol. recertification phase approved 1990. Formally recertified 1992-20011 (NOTE: CSP curriculum including but not limited to mathematics, chemistry, physics, engineering, applied mechanics, structural design, ergonomics, industrial hygiene, fire prevention/protection, electrical hazards, job hazard analysis, facilities and equipment design, behavioral sciences, safety program planning, legal and regulatory requirements, disaster planning, epidemiology, environmental hazards - full curriculum and maintenance of certification submitted upon request).

Board Certified Professional Ergonomist (1994)

Certificate Number 675

Board of Certification in Professional Ergonomics,
BCPE, Bellingham WA

Fall curriculum and maintenance of certification 2010 submitted upon request

OSHA Trainer: Fall Arrest Systems 6/91, 9/91, 5/92, 7/92, 4/94

NAFE Fellow, CESB Board Certified Diplomate in Forensic Engineering by NAFE, Certificate Number 485F
National Academy of Forensic Engineers 2/9/94
Hawthorne NY
CESB is the Council of Engineering Specialty Boards

LICENSING

Registered Professional Engineer

Safety Engineering, License #SF003342

Issue Date 1/29/93

Board of Registration for Professional Engineers and Land Surveyors, State of California

Registered Professional Engineer

Safety Engineering, License #37299

Issue Date 3/26/93

Board of Professional Engineers and Land Surveyors; State of Massachusetts

UNIVERSITY

Ph.D., Photochemical Processes

Manchester University, England (1966)

The research of sunlight-induced reactions of common chemicals to produce complex industrial chemicals and pharmaceuticals by more economical engineering means.

M.Sc., Chemistry

Manchester University, England (1964)

Curriculum included advanced mathematics, physics and physical chemistry.

B.Sc. Honours, Chemistry

Manchester University, England (1963)

Curriculum included advanced mathematics and organic, inorganic and physical chemistry and physics.

M.S. Industrial Engineering and Safety "program practically complete (2007-)

Auburn University, Occupational Biomechanics,

Engineering Economics, Lean Production

Partial completion for requirements of M.S. degree

HIGH SCHOOL

Acklam Hall Grammar School

Middlesbrough, England (graduated 1960)

ADDITIONAL TRAINING

"Human Factors" ASSE Consultants Division course by Alphonse Chapanis, Ph.D. 1988 and ASSE Construction Division Course (1988)

"Slip and Fall" Seminar, National Academy of Forensic Engineers, National Society of Professional Engineers conference 1989

"The Management Course" American Management Associations (four weeks) 1980

"Multimedia Standard First Aid Certificate", American Red Cross 1985

Engineer-in-Training Review Course, University of Delaware, Oct 1990 - April 1991

Architect-Engineer Liability, Cambridge Ins. 1/91

Scaffold Erection and Safety 40 hours Course - Purdue University,
Dept of Construction Technology, Calumet, IN 8/91

OSHA Fall Arrest Systems Course 6/91, 9/91, 5/92, 7/92, 4/94

Agency Remedies Courses and Writing, Delaware Law School 6-7/93

Philo "21 hour course"Third Party case development 9/93, 9/94, 9/96, 9/97, 9/99,
9/01, 09/02

Full Radiation Worker trained and indexed (NRC) 6/94

Human Factors Engineering Course, University of Michigan 8/94 (40 hours)

OSHA 10-Hour Construction Course (National Safety Council) 1/97

Daubert Challenges to Forensic Engineering and Scientific Methodologies NAFE
06/07

SEAK Annual National Expert Witness Conference, Cape Cod, MA 06/21-22/07

Standard First Aid, Certificate, American Red Cross of Alaska 2009

SEAK 18th Annual National Expert Witness Conference, Chicago, IL 06/10

Competent Person, Hands On, Design & Loading, and Suspended Four Day
"Train-The-Trainer"

Scaffold Training Institute. League City, TX 07/18-21/11

Other Experience:

ISFP Founding Member and Co-Chair of Program Committee for Symposium
2000, Orlando, FL

International Society for Fall Protection (ISFP) Board Member 1988-Present

Jewish Community Center (Wilmington, DE) Safety Director 2006-2009

ASSE Engineering Practice Specialty Newsletter By-Design 2006-2008

ASSE Assistant Administrator Engineering Practice Specialty Newsletter 2007-
2009

Patents:

Dr Ellis holds numerous patents on fall-related devices and techniques obtained throughout his career.

8,122,673	B2	Portable Safety Skylight Replacement Assembly
7,992,681		Portable ladder assembly
7,527,461		Safety rail assembly
6,619,428		Walk-through ladder
6,347,685		Walk-through ladder
6,095,283		Walk-through ladder
4,538,703		Climbing aid and safety descent system
4,458,781		Climbing aid and safety descent device
4,392,555		Fall protection device
8,251,179	B2	Portable Safety Ladder Assembly

"Guidelines on Fall Protection"
- 1995 Bests' Safety Directory: 34th Ed. "Guidelines on Confined Space Fall Protection and Retrieval"
- 1973-74 Best's Safety Directory 14th Ed. "Guidelines on Fall Protection"
- 1988 "Introduction to Fall Protection"
Publisher: American Society of Safety Engineers, Des Plaines, Illinois
Text book 8 (1/2)" x 11" format 132 pages
Provides a methodology for safety planning to provide fall protection in both general industry and construction trades applications. Provides engineering guidelines for helping interact safety professionals with civil

engineers working together to plan fall protection for foreseeable fall hazards. Calculations for horizontal lifelines dynamic performance are presented with determination of maximum fall arrest distance and clearances required for proper anchorage point planning.

- 1994 Second Edition "Introduction to Fall Protection"
Updates new OSHA, ANSI and other standards around the world 228 pages
- 2001 Third Edition: "Introduction to Fall Protection"
Reorganized chapters, fall protection engineering focus and standards update 509 pages
- 1984, 1992 Fall Protection Tips (second edition 1992)
Publisher: Research & Trading Corporation, Wilmington Delaware and Dynamic Scientific Controls, 1992
Provides tips for practical solutions to fall hazard problems in construction and industry.
- 2001 12th Edition; Accident Prevention Manual
- 1996 11th Edition; Accident Prevention Manual
Fall Protection Systems, and program development throughout the Manual
- 1992 10th Edition; Accident Prevention Manual
Fall Protection Systems/Personal Protective Equipment Chapter - review and rewrite
- 1988 9th Edition; Accident Prevention Manual

DSC FALL PROTECTION TRAINING CENTER

(3-4 day courses)

INDUSTRIAL AND CONSTRUCTION FALL PROTECTION

Fall Protection Training Center

1990-1999 Instructor for dozens of Courses for Competent & Qualified Persons including course design and presentation of the OSHA Fall Arrest System Course#311

1991-2002 Instructor for dozens Custom tailored on-site courses for numerous private and government organizations

SEMINARS and TALKS

Since 1985 Dr. Ellis has presented over 100 times to audiences coast to coast

HONORS & AWARDS

1985 NSC Medal - William H. Cameron Award for Safety
1985 Listed "Who's Who in Finance and Industry"
1988 NSC Medal - William H. Cameron Award for Safety
1986 American Society of Safety Engineers - elected Professional Member
1988 Listed in "Who's Who in the East"
1990 Listed in National Directory of Safety Consultants - ASSE
1991 NSC - William H. Cameron Certificate for Safety
2005-2006 ASSE Engr. Practice Specialty "Safety Professional of the Year"
2006 ASSE Engineers Practice Specialty Newsletter Editor
2007 ASSE Engineers Practice Specialty By-Design Editor "Most Improved Newsletter" Award by the ASSE Council of Practices and Standards
2007 NSC Distinguished Service to Safety Award (DSSA)
2010 ASSE 109th Fellow Honor Award
2011 Thomas F. Bresnahan Standards Medal
